Betreff: Request for input from national mirror committees - Options paper
CEN/TC 226/WG 3/PT 1 A

Dear Ms. Panek,

I have been asked by the Chairman of our national mirror committee to send you our answer to your request.

The answer is: Norway recommends option 3" with the "new test method" and a sufficient number of "new classes", as this will introduce performance based requirements and allow distinction between retroreflective sheeting materials with widely different properties".

Have a nice day!

Med hilsen / Kind regards,
Knut AUNE
