Betreff: RE: Request for input from national mirror committees - Options paper CEN/TC 226/WG 3/PT 1 A - EXTENSION OF DEADLINE 2016-09-16

Dear Lilian,

The Spanish mirror committee prefers the option 3 of document N 287.

We also want to communicate the following comments:

- 1.- It's necessary include a retroreflection table for factory quality control or/and on-site control.
- 2.- We think it is more appropriate the existence of tables with values for all colors. Not a table of values for white color and another one with the conversion factors to different colors.

Best regards,

M^a Luisa Jimeno
