Betreff: VS: Request for input from national mirror committees - Options paper CEN/TC 226/WG 3/PT 1 A - EXTENSION OF DEADLINE 2016-09-16

Lilian

The Finnish Mirror Group has voted on the question and alternative 1.b Keep "current test method" with the "old classes" plus "current classes got 50 % and alternative 3. Introduce "new test method" and a sufficient number of "new classes" got 50 % of votes.

The members understand the need for new methods but half of them do not consider the need urgent.

As a conclusion Finland asks for one of the following

- A. publish a standard which includes two systems of classifications (1b and 3) and each country could choose when to start requiring alternative 3.
- B. publish a new standard based on alternative 3 but keep existing standards available for a period of 5 to 8 years and each country could choose when to start requiring alternative 3.

It would be easy for every country to accept this approach. However, it is not clear if the CEN Consultant can accept A or B.

Best regards

Kari

Request for input from national mirror committees - Options paper CEN/TC 226/WG 3/PT 1 A – EXTENSION OF DEADLINE 2016-09-16

Dear members of CEN/TC 226/WG 3 and/or CEN/TC 226,

I lament to address you once again regarding the request for input. Due to the holiday season, Sandra Jacobi and I have decided to extend the period for feedback to the middle of September 2016 (**2016-09-16**).

Please send in your comments/opinion by Friday 16th September 2016 at the latest.

Thank you again for your cooperation and active participation!

Best regards

Lilian
Secretary CEN/TC 226/WG 3

Lilian Panek
Project manager
DIN – Building and Civil Engineering Standards Committee (NABau)
