**Betreff:** Danish position on EN 12899-1-1

2016-08-29

Secretariat of CEN TC 226 / WG 3  
Vertical signs

Lilian Panek

### Danish position on EN 12899-1-1

EN 12899-1-1 Fixed, vertical road traffic signs — Part 1-1: Performance of retroreflective sign face materials (former draft prEN 12899-6)  
CEN/TC 226 WG3 N0288

Dear Lillian,

The relevant Danish committee DS/S-349 on road equipment has considered the options and recommends "option 3" with the "new test method" and a sufficient number of "new classes, as this will introduce performance based requirements and allow distinction between retroreflective sheeting materials with widely different properties".

Kind regards,  
Carsten Riis Fredriksen  
Secretary of CEN TC 226 in Denmark

**Emne:** Request for input from national mirror committees - Options paper CEN/TC 226/WG 3/PT 1 A - DEADLINE 2016-08-31

Dear members of CEN/TC 226/WG 3 and/or CEN/TC 226,

As you might be aware, CEN/TC 226/WG 3 is currently revising the standard series EN 12899 (all parts).

In WG 3 Project teams (PTs) responsible for the drafting of the different parts were instated at the beginning of the revision process. The Project Team "PT 1 A" is in charge of

**EN 12899-1-1 → Fixed, vertical road traffic signs — Part 1-1: Performance of retroreflective sign face materials (~ former draft prEN 12899-6)**

At the last meeting of CEN/TC 226/WG 3, PT 1 A sought guidance from the members of WG 3 because the PT could not agree on the further procedure. It was decided that PT 1 A would prepare a document with options and their clarification which then would be forwarded to the national mirror committees in order to obtain a direction/guidance from the different CEN member states (MS).

Please find this “options paper” attached with this email. We kindly request the document to be discussed in your national mirror committees a.s.a.p. in order to provide PT 1 A with the requested input and guidance.

If you are not an employee at a NSB (National Standardization Body) but merely an expert, please forward this email to your contact at the NSB of your country responsible for the appropriate mirror group.

Please be so kind as to send your national comments/opinion until **31<sup>st</sup> August 2016** at the latest via email to [lilian.panek@din.de](mailto:lilian.panek@din.de).

Feel free to contact me anytime if any doubts or questions remain.

Thank you very much for your cooperation and active participation in advance!

Best regards

Lilian  
Secretary CEN/TC 226/WG 3
